Dear Residents of Ford City:

In June of 2005 the Department of Environment Protection served a consent order against the Ford City Municipal Sewage Disposal Authority. Some of the requirements of this order were to separate the storm water from the sanitary flow to the wastewater plant and eliminate the discharge of untreated sewage to the river.

In order to meet these requirements, the Ford City Municipal Sewage Disposal Authority is undertaking a sewer separation project. This project involves the construction of new sewer lines in your area. This is mandated by D.E.P. with no exceptions.

On April 14, 2010, the Authority will hold a public meeting at 7:00 P.M. at the Ford City High School Auditorium which is located at 4<sup>th</sup> Avenue and 11<sup>th</sup> Street, Ford City, to inform the residents of the details of the construction. This project is going to be quite large and there are going to be disruptions to the residents during the construction. We strongly urge someone from your household to attend this meeting.

We understand that there are a lot of concerns and unanswered questions about the project. Hopefully, with a spirit of cooperation we can work through the problems and complete this project on time. Ford City is a beautiful place to live and our goal is to make the streets and sidewalks as good if not better than they were before the project started. We want to thank you in advance for your cooperation!
